DEFINING THE NEW STANDARD FOR URODYNAMICS

NXT PRO – ELEGANT SIMPLICITY

In 1984, LABORIE introduced the world to computerized urodynamics. Thirty years later we maintain our unwavering passion to bring the most capable software tools to the market. Introducing NXT Pro:

SEAMLESS WORKFLOW. Manage patients to record new procedures and review saved data in a seamless workflow.

EFFICIENT. Perform multiple study types:

- Free-Flow Uroflowmetry
- Filling & Voiding Cystometry
- Leak-Point Pressure Stress Tests
- Video Urodynamics

DYNAMIC. Use custom templates to generate comprehensive reports with normal ranges for interpretation support, and export as PDF files
