Features & benefits of the Next Generation Sonesta chairs

Weight capacity – 375 & 465 lbs.
New soft ergonomic and low profile cushions with improved foam – To enhance patient comfort and feel.
Fold up arm rests – Easy access to the patient from each side; creates a safety precaution when chair is engaged in the table position.
Height adjustable head rest – For patient comfort and ease of use.
Vacuum formed back cover – Protects and covers the frame and other structural parts, for a calmer and less mechanical feeling. Easier to clean.
Neck pillow – Using adjustable magnets for a more premium feel.
New handlebar – Supports chair mobility: designed with built-in paper towel holder.
Footrests – Newly designed with lever to insure safety for end users. Plastic covered magnet keeps footrest in place when folded up.
New ergonomic leg rest – Improved comfort and asymmetric shapes allow leg rest repositioning during procedures if needed.
A versatile examination table with C-arm capabilities

The 6210 fluoroscopy procedure table offers the physician standing, seated and supine positioning capabilities. This versatile table easily adjusts from or to standing, seated, and supine positions via a hand held control thus creating a table that is easily accessible to patients of any age. The side-mounted cantilevered design offers the physician anterior/posterior, lateral and oblique views without obstruction. For added convenience, the table is equipped with a battery backup for short-term use in case of power failure or in emergency situations. The superb C-arm access and wide range of positioning possibilities make the 6210 the ideal table for any fluoroscopy procedure.

Features:
- Three motors offer unparalleled positioning and access options.
- Radiolucent carbon fiber seat and back for head-to-toe imaging.
- Four double wheel rolling casters offer unencumbered maneuverability.
