# Post-Procedure Patient Care Instructions

- 1 AVOID** strenuous physical activity as directed by your physician following treatment.
- 2 START** medications prescribed by your physician immediately after treatment.
- 3 CALL** your physician if you experience significant pain or bleeding.
- 4 ABSTAIN** from sex or wear a condom for 30 days post-treatment to avoid exposure of sexual partner to paclitaxel.
- 5 POSTPONE** sexual activity or use highly effective contraception.
